LEWIS, MURDERER OF GIRL SUICIDES AT MIDNIGHT

Special to the News.

PHILADELPHIA, Jan. 4.—Shooting himself dead tonight in his room at a hotel in Atlantic City, while the officers were at his door with a warrant for his arrest in connection with the murder of pretty Mazie Colbert, the stocking and corset model, Bernard Lewis, son of Weneman Lewis, a prominent Pittsburg lawyer, practically admitted his guilt.

The warrant for the arrest of Lewis specifically charged him with defrauding a taxicab driver out of $19 for taxi hire, the idea being to detain him until his possible connection with the crime could be investigated.

His act, the officers declare, indicates that he was the murderer.

WILSON PREPARING ANOTHER PEACE NOTE

WASHINGTON, Jan. 4.—President Wilson and Colonel E. M. House are working on details for the President's next move toward peace.

It is expected to come shortly after this government receives the official text of the entente reply to the President's first communication to the belligerents.

While the President himself says that he has not made up his mind as to what will be his next move, those immediately familiar with his purpose and methods of procedure had little doubt today that the President will dispatch another communication to the belligerents as soon as the entente reply is received.

It is announced that when the President takes this action he will put in his second punch for peace.

In German circles here it is hinted the President knows of the "liberal peace terms Germany would have offered" had the entente allies accepted the Teutonic overtures.

WOMAN TO DELIVER CALIFORNIA'S VOTE

EUREKA, Jan. 4.—A woman will deliver California's Presidential vote to the United States Senate when that body canvasses the official returns of the recent election. Elector L. F. Puter of Eureka made this announcement today after consultation with the other electors representing this state. Mrs. Carrie L. Tyler, Mrs. Margaret Wiley or Mrs. Virginia Shinks, the women chosen among the thirteen California electors, will have this distinction.

The thirteen California electors will leave in a special car for the East Monday night.

The annual convention of chambers of commerce at Sacramento will be attended by Secretary J. A. Long of the Richmond chamber.

FALSE ALARM OF FIRE.

Fire Chief Lamoine would like to know who it was who turned in a false alarm of fire from the box at Richmond avenue and Alvarado street last night. It costs the taxpayers several dollars every time the fire department is called out, and the men do not relish being called out unless there is work for them to do. The police are seeking a clew to the fellow, as the offense is punishable by heavy fine or imprisonment.

THE SANFORD INQUEST.

Coroner C. L. Abbott personally conducted the inquest into the circumstances surrounding the auto accident which caused the death of "Billie" Sanford, a dancer in the Panama-Pacific cafe, some weeks ago. No new facts were brought out beyond those already published. It developed that A. J. Ghirso, the driver, threw on the brake when a front tire blew out, causing the machine to skid and turn over.

The verdict was to the effect that death was due to a fractured skull due to the turning over of an auto owned and driven by A. J. Ghirso.

YOU AIN'T FOOLING?

SAN FRANCISCO, Jan. 4.—More than $21,204,000 worth of money was coined in San Francisco during 1916, according to the annual report of Superintendent W. H. Shanahan of the United States mint. During the year 52,322,500 coins were made, ranging from $20 gold pieces to pennies.

John Carroll, an employe of the Stege Powder Works, was caught beneath a falling wall while dismantling an old building, and his right leg was broken. He was treated at hte Abbottt emergency hospital.

Conucilman Long made a ten-strike at the council meeting on that minimum $3 a day proposition. Jim is the workingman's friend, and his motion was met with unanimous approval by every other member of the council.

District Deputy Grand Matron Mrs. Elizabeth Gnaga of the Eastern Star yesterday rehearsed the officers of Miramar chapter on their ritualistic work. Mrs. Gnaga succeeds Mrs. Mary Hutton of Berkeley.

Work has been resumed on the First Christian church here with the return of Architect F. W. Reid. Four carpenters are working on the foundation forms.

Miss Ruth Sanborne entertained a number of friends Wednesday afternoon at her home with games and music. Refreshments were served. Those present: Miss Reed of Los Angeles, Miss Elsie and Catherine Dingle of Berkeley, Mrs. W. S. Poage, Miss Anna Metz, Miss Bond, Miss Wickander nad Miss Octavia Norton of Richmond.

PANAMA PACIFIC CLOSED BY COURT

Another victory for law and decency has been scored by the Young Men's Law Enforcement League of Richmond.

Judge McKenzie yesterday decided against the proprietors of the joint, the action instigated by the league against the proprietors of hte joint. The effect of the decision will be to close up the establishment. It is located at Stege on San Pablo avenue, and for a long time has borne an unsavory reputation.

The action was brought under the provisions of the Redlight Abatement act, on the allegation that the place was used for immoral purposes. It was alleged that a woman solicited men in the place. Pazzola and Saporitti, the proprietors, took refuge behind the contention that the consummation of the immoral act took place elsewhere, and the technicality bid fair to save them, the court expressing doubt as to there having been a violation of the provisions of the act in the place designated. He asked that briefs be presented.

Alvin Gerlack, attorney for the league, prepared a brief which sealed the doom of the place. He cited many decisions bearing on the case, with the result that the court held that as the cafe has been used "in furtherance" of the immorality, it had come under the provisions of the act.

Entitled to credit for the victory are Rev. S. K. Skinner, who worked very hard on the case, as secretary and treasurer of the organization; and Mrs. Clare Wilson of the W. C. T. U.

The officers of the league desire to thank all who aided them in any way in this campaign for decency.

The charges against the Six Bells cafe and the Panama-Pacific cafe for selling liquor without a license were dismissed on motion of Attorney Gerlack, the former having been closed already and the end sought for the other place having been reached in another way.

At the Freeholders' meeting last night in the Schram block we tried on half a dozen hats other than our own, but none of them were much better. Brother Calfee's was worse, and Joe Ford's was too big, which proves he has the big-head. Conn's had a dent in it and Alec Elsie's was of Queen Anne style. So we retained our own, which is one we won from Jim Long on the election of Wilson.

METZ HOME ROBBED OF COIN LAST NIGHT

Burglars entered the home of Anna Metz, a music teacher, last night, while she was out, and took $3 in coin. Entrance was effected through a window.

On her return home she discovered her loss and immediately notified the police, who sent officers to the scene. No clew to the burglar was discovered, however.

The burglary took place some time between 8 and 9 o'clock.

So far as could be discovered, nothing else was taken, though drawers had been ransacked, indicating that only coin was sought.

KNOTT IN SOUTHLAND.

Zeb Knott left Wednesday morning for Los Angeles, where he will attend a meeting of the State Master Painters' Association, which meets in that city this week. Mr. Knott will spend a week visiting points of interest in the southland after the adjournment of the convention.

RESULT OF IRRIGATION.

In the advertising columns of hte News will be found an announcement of the result of the irrigation system at Orland, Glenn county. The irrigation scheme was the work of the U. S. government, and the transformation of that section from what was regarded a waste until the water was supplied in abundance into one of the most productive sections of the state furnishes one of the notable instances of California development. Messrs. F. D. Burr & Co. are pushing this section to the front. The firm is represented in Richmond by H. E. Somerville, 913 Macdonald avenue, who will be pleased to give reliable information to any who may feel interested.

ANOTHER BIG FACTORY.

The Richmond Industrial Commission is arranging the details for the location here on the Southern Pacific right of way, of a large rolling mill, bolt and nail factory, in the vicinity of the Standard Oil Works. It is expected that the new factory will be ready for business during the coming summer.

STAGS INSTALL.

Richmond Drove of Stags have installed officers as follows: F. M. Rader, exalted ruler; H. J. Beyer, past exalted director; H. McClusky, prelate; C. M. Crandell, senior warden; G. Lorenzana, junior warden; H. E. Johnson, inner guard; H. L. Springer, recorder; J. E. Cook, treasurer. Past Director Beyer was presented a ring byl the members. A banquet followed.

IMPORTANT NAVAL BASE NEWS POINTS TO RICHMOND

Evidence that the government officials sent out to investigate the various locations mentioned for the location of a naval base are very favorable to the Richmond-Albany site, continue to accumulate.

The News takes pleasure in republishing the following from the Oakland Enquirer of last evening, as it is corroborative of what this paper has already stated

Under the direction and auspices of the naval commission of the U. S. government, a complete and exhaustive geodetic survey of the water area of the Richmond bay, for the purpose of determining its assets and requisites for the locating of the proposed $29,000,000 naval base for the Pacific Coast, is being made. The work, which comprehends the gathering of the most thorough data as to the stability of the earth at the bottom of the bay, consistency of the shoal lands, and various other information as to the depths, distances and areas, has been in progress for more than two weeks. It is now nearly finished.

Richmond-Albany now takes its position as the foremost site for the gigantic naval base, above all the others presented for the consideration of the commission. Careful surveys having been made of the other proposed sites, including Hunter's Point, Richardson's bay near Belvedere and Yerba Buena island, greatly more attion and funds have been expended upon the Richmond site.

Commander A. J. Menocal, civil engineer in the navy department, is the official in charge. Working under his orders are a corp of engineers and a crew of pile drivers. The equipment is the property of Healy-Tibbetts company, and is under the management of George Chalmers, a civil engineer of Berkeley. The cost of the survey to the government for the equipment alone is estimated at $500 per day.

Between Point Isabelle and Point Fleming, and from a given point toward Yerba Buena island to Brooks island (Sheeps island) thus fa- soundings have been gained, and estimate stakes driven at forty-two locations. At nearly every point, tube tests have been made of the properties contained in the material of the bottom of the bay.

This detailed information obtained by the order of the federal commission will be presented to that body upon its return to San Francisco from the northwest in a few days.

Commander Menocal has made no secret of the work in which he is engaged, and it is understood no effort had been made by the government officials to keep the work a secret.

Today Chalmers said he felt enthusiastic over the prospects of the Richmond-Albany site to gain the naval base.

"The cost to the government of this test is too gre t not to have some significance," said Chalmers, after he had explained what the engineers were doing to gain the date. "The rent of the equipment is $500 pe. day, without adding the expens of the crews. Unless the commission felt very favorably toward the Richmond-Albany site, it would not order that this expensive work be done.

Wells Drury, one of the foremost advocates of the Richmond-Albany site and secretary of the Berkeley Chamber of Commerce, is elated at the prospect.

Members of the real estate committee, of the Berkeley Chamber of Commerce, appointed for the purpose of placing a valuation on the land included in the Albany site, have issued a statement that the land consists of 1972 acres, valued at a total of about $1,289,000. The committee consists of C. C. Emslie, W. J. Mortimer and W. P. Woolsey.

SOCIAL SERVICE SESSION TONIGHT

Bureau Will Meet for Annual Election and Resume on Year's Work.

The Social Service Bureau will meet at Judge Roth's office in the Pillow building this evening at 8 o'clock, for the purpose of electing officers for the ensuing year, and hearing reports from the several committees who have had charge of the distribution of aid to deserving poor during the year.

It is probable that the present officers will be elected to succeed themselves. M. B. Roberts is the president and City Attorney D. J. Hall superintendent.

During the past year the Bureau has accomplished a great deal of good among the unfortunate of this city, and too much cannot be said for the zeal with which the men and women of the organization have prosecuted their labors. They have used discretion and tact, with the result that a great deal of good has been accomplished in a quiet way, and people in real distress have been relieved without the uncomfortable feeling that they have sacrificed their pride.

A detailed report of the work accomplished by the Bureau would make a column of type. They have done more than administer to the physical wants of the unfortunate. They have been of assistance where their moral welfare was at stake, and in more than one instance they have kept intact families whose relations were strained to the breaking point.

Quite a number who required hospital attendance, but lacked the necessary fee have been aided in that direction. In this way lives have been saved, pain alleviated and much physical misery prevented.

Cast-off clothing, still serviceable, has been made over and mended so that it was available for use where the recipient could not afford a new suit.

The real good that has been accomplished by the Social Service Bureau of Richmond has been the best investment that the taxpayers of this city ever made.

It is hoped that there will be a large attendance at the meeting.

Judging by the rapid speed made by that cash railway in the Big Store, that man Kauffman will soon get into the plutocrat class. Those little buckets full of money keep flying through the air from a. m. to p. m.

So many lots are being sold and so many new buildings going up on them, that we just can't keep track of half of them, and would be greatly pleased if our real estate men would send or phone in such items of news.

RESOLUTIONS

With the opening of the New Year, it is almost a universal custom to begin with a set of good resolutions.

The great disadvantage and horrors of the war, coupled with the high cost of living, which we have all labored under during the past year, are more than offset by the bright outlook for peace and prosperity during the coming year.

Let us all therefore look well to the future and lose no time in beginning preparations for our share of what is to come.

The simplest, safest and surest way of accomplishing this purpose is that one of your resolutions be to open an account in our savings department at once and systematically build it up.

SOMETHING SHOULD BE DONE.

Last evening papers tell of a little boy in San Francisco who was killed in twenty minutes' time by an injection into him of antitoxin by the City Health Physician. This boy, six years old and in perfect health, was given a dose of this strong medicine by injection, being called into the house from his play, and in twenty minutes after he was dead.

Now, we do not know what antitoxin is, or how strong it is, and presume it is administered to ward off infectious diseases, and as far as we know it may be good stuff to shoot into people's systems for some things, and then again it may not. But at any rate, anything that kills a perfectly healthy boy in twenty minutes after it is administered, and any law requiring any such administering, and any man administering it should be looked into, for, we take it, that the case here mentioned is little less than murder. It may not be murder legally, or technically, but in effect that is just what it is. And it makes no difference to the person thus killed, or the friends and relatives of the deceased, whether it is technical or not—the result is the same and the child so treated is just as dead as it otherwise would or could be.

We do not want to be unduly harsh in a matter of this kind, being more or less ignorant about it, as the average person not a medicine man is, but speaking for ourself, we will just remark very plainly that any man, health officer or otherwise, who calls around at our house to shoot any of that dope into us or any member of our family need not bring a syringe, for that is not what he is going to need. What he is going to need is the services of an undertaker.

The Treasury Department announces that the increase in the circulation of bank notes last month was $3,000,000. We hadn't noticed it.

An erudite Eastern exchange says the best way to meet and conquer danger is to march right up to it and strike it between the eyes. Now San Francisco will know what to do next time an earthquake shows up.

Shooting holes in the tires of speeding autos is a practice some authorities and many pedestrians are putting into execution. They have our permission to drill a few holes into the chauffeur as well.

The alleged comic valentine will shoot athwart the morn next month and a lot of half-baked idiots will send them to people and think they have done something smart. In point of fact, those dirty sneers nearly always hurt the feelings of those receiving them, and nobody with the brains of a canned clam would be guilty of sending them to anybody.

PREACHERS AND EDITORS LIARS.

A preacher came at a newspaper man in this way: You editors do not tell the truth. If you did you could not live; your newspapers would be failures. The editor replied: You are right, and the minister who will at all times and under all circumstances tell the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with whitewash brushes and pleasant words, magnifying little virtues into big ones. The pulpit, the pen, and the grave stone are the great saint-making triumvirate. And the great minister went away looking very thoughtful, while the editor turned to his work, and told of the unsurpassing beauty of the bride, while in fact she was as homely as a mud fence.

Watsonville is getting to be a great place for apples. What a picnic Adam and Eve would have had down there.

The word "thousand" is misspelled on a lot of thousand dollar bills recently issued by the government, and we shall have to refuse to accept any of them on subscription until the spelling is corrected.

MARRIAGE AND DIVORCE.

The true solution of the marriage and divorce question lies with the home more than with the legislatures. It is more a matter for education and training than of legislation. The girl whose early education has been gained on the street, whose selfishness has been gratified at the expense of her parents and whose preparation for marriage has lacked an acquaintance with the common duties of the housekeeper is a standing candidate for the divorce court. The young man who has grown up without responsibility, who has wasted his youth and pawned his manhood to idle and dissolute habits is another. The ministers who are asking the state to prevent divorce and repress marriage have their responsibility in these cases, many of whom have been of their flock and under their spiritual supervision. The parents are mostly responsible for the negligence and mistaken kindness that unfits children for the duties of life. Good fathers usually train up good husbands and good mothers usually produce good wives. The question of marriage and divorce seems to rest more upon the early training of the individual than with the law. Educate, not legislate, should be the motto for the reformer.

A lot of us hand it to Rockefeller mighty hard who would be Rockefellers if we had the brains and opportunity.

Ten years ago when we went to dances we got all stirred up with the music and wanted to two-step and side-step every blessed moment, and begrudged the time lost in going to supper. Now we sit around and talk to the other old folks and keep wondering all the time why in blazes they don't call supper.

LIGHT HOUSEKEEPING.

One Richmond woman put an advertisement in this paper to rent rooms for light housekeeping, and the next day after she rented them two of the children of the family who moved in came down with the measles, the husband came home drunk and broke up the furniture and the wife gave birth to a 12-pound baby. Now the landlady is in doubt as to whether all that comes under the head of light housekeeping or not.

POLICE ON THE JOB.

If you don't think the police of Richmond are on their jobs just follow the trail of this news gatherer as it leads all over the city at all hours of the night. Every time we start down a dark alley on chase of a news item we butt into blue coats and brass buttons. Then when they flash a light on us they join in the laugh we give 'em. Glad we are not in the burglary business—it's too risky with those big husky guys never sleepin' no time.

Thinks from the Thinkograph

SUMMONS.

IN THE SUPERIOR COURT OF the County of Contra Costa, State of California.

Conradina Mosely, plaintiff, vs Ernest E. Mosely, defendant.

Action brought in the Superior Court of the County of Contra Costa, State of California, and the complaint filed in the office of the Clerk of said County of Contra Costa.

The People of the State of California send Greeting to Ernest E. Mosely, defendant:

You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the County of Contra Costa, State of California, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment against you for any money or damages demanded in the complaint, as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the County of Contra Costa, State of California, this 27th day of September, A. D. 1916.

Financial Independence

HOW TO OBTAIN IT

By H. C. CUTTING

This is one of the greatest little books of the age. I have read it and re-read it, and studied it, and while it sells for only 50 cents, I consider it worth $10 to any man who wants to post up on the most vital subjects of our time.

It shows in plain, simple, language the cause of our financial ills, and suggests a remedy which is worthy of consideration of our Government and our brightest financial minds

It points out an easy road toward bettering the condition of every man, woman and child in the United States.

It is deeply interesting from cover to cover, and ought to be in the hands of every man in the country.

Send to Mr. Cutting and get one. The price is but cost. He seeks not profit but the wide dissemination of needed knowledge.

F. J. HULANISKI.

Address H. C. CUTTING, 859 MONADNOCK BUILDING, San Francisco.

PANTAGES THEATRE IS VERY INTERESTING

Rucker and Winnifred, the comic Chinaman and "Coon," continue to be the talk of the East bay region How any one man can open his mouth as far as Rucker does—but then everyone has heard that! Anyhow, they continue to make laughs—and more laughs—and then there are other laughmakers, too, to begin where they leave off. Senator Francis Murphy, for instance, explains about the European war—but never as it was explained before—and perhaps as it will never be explained again. It's a scream. And then there is the headline act, "Mr. Unquisutive." A gentleman with a toothache walks into a dentists's office—and there the fun begins.

Of course, people have gone into dentist's offices without seeing the humor—but not after they have seen this act. It would make Dr. T. B. Mohney, champion tooth puller of the world, laugh himself—and dentists have a proverb about this distinguished extractor.

The Three Keatons, Burke and Broderick, the Sibbon Sisters, Georgie Chartres, the famous whistler, and "The Lass of the Lumberlands," round out the bill. Booked for an appearance in the near future is Hardeen, the handkuff king, one of the original Houdini brothers and the man who no bolt or bar can hold.

LIVING INCREASE 80 PER CENT.

"A steady enhancement of prices has been going on for nearly twenty years. It is apparent that the man living on a salary is standing in quicksand, and that the value of his salary is continually oozing away from under his feet."

Such is the statement of President Benjamin Ide Wheeler of the University of California in his annual president's report to the governor. He calls attention to the needs of the teaching force of the university because of the "enormously increased cost of living."

The cost of living increased 50 per cent in the ten years from 1896 to 1906, and another 50 per cent between 1906 and 1916, and in 1916 shot up faster than ever, so that by December, 1916, the cost of living was 80 per cnt higher than in 1906.

EPISCOPAL PARISH MEETING.

The annual parish meeting of Trinity church will be held at the church room today at 8 p. m.. Officers will be elected for the coming year and also delegates to the Diocesan convention, which commences Jan. 23. The Guild will also elect its officers at the same meeting.

A GROWING BUSINESS.

There is no article that enters into home consumption of greater imporatnce in the conservation of health than the milk and cream supply. There is one concern in this city that recognizes this fact fully, and in view of this is using every effort known to the trade to make its product absolutely sanitary and free from all impurities. The Harbor Creamery Company, owned and operated by J. B. Silveira, with main offices at 512 Macdonald avenue, and a branch at 140 Washington avenue has attained the highest state of perfection in its product, and that their efforts along this line are appreciated by the users is attested by the rapidly expanding trade which the company enjoys. Nothing in the milk or cream line is permitted to be delivered to customers unless it is of the highest quality.

The News gets a telephone service from San Francisco and Oakland all night long, so if you want to know how anything is going on just phone in any time during the night. About a dozen hellowed Tuesday night to find out about the big wrestling match.

MAN IN OVERALLS STYLISHLY DRESSED

The man in the overalls is coming into his own. Somebody has invented a slip-on one-piece suit that is good enough to edit a paper in. In fact, if paper continues to go up, it will be about all the newspaper men can afford. We don't know who the inventor is, but we know that Goldwater & Co. of Los Angeles are the manufacturers, because they are advertising in the News. Anyhow, we hail the invention as the psychological production of the century. The beauty of this suit is that a woman can wear it as easy as a man, and with no inconvenience whatever—absolutely none. That's as strong as we can put it.

Messrs. Parker & Birch, 833 Market street, San Francisco, distributors of the utility garment, have been in Richmond this week, demonstrating this nifty work suit among the big factories. Their plan is to demonstrate and then give a suit to the most popular man in the crowd. Evidently there is something about the athletic hero that attracts, for in every instance the most popular man has proven to be an athlete in one way or another.

At the Union Iron Works in Alameda,. the suit went to J. Turner, a colored man—a former ring champion. At the Chevrolet works in Oakland, Speed Martin, the baseball pitcher, got the coveted prize.

At the Pullman works in Richmond Joe Creedy secured the prize. He is a powerful fellow and well built.

At the Standard Oil Works M. Ruzzuti, working in the electric shop, was unanimously chosen. He is well over six feet tall and splendidly proportioned.

At the News office, Editor Hulaniski was selected, doubtless owing to his Apollonarian form. With a little padding he fitted a boy size very nicely, here and there.

Jones & Adkison are the local agents, and they report that the first sale was two pairs to a Richmond woman, who said she wanted them to do her housework in.

SEAMAN RAN.

The News is in receipt of a letter from R. W. Seamans, a former Richmond boy, who is now mining around Sonora. He says that recently while inspecting one of the tunnels he and his partner encountered a claim jumper in the shape of a little four-footed animal that has a habit of fixing the atmosphere on very slight provocation. Seaman says he started running as soon as he saw the intruder, and when he stopped he was three of four counties distant.

LAST HIGHWAY LINK.

The Berkeley City Council yesterday ordered the securing of bids for the paving of San Pablo avenue from the West Berkeley line to the Alemeda-Contra Costa county line This will complete the last link of the state highway from Oakland to Sacramento.

UNITARIAN LECTURE.

The Hon. Chas. A. Murdock of San Francisco will lecture at the Unitarian church on Sixth street, next to the postoffice, at 8 o'clock Friday evening. Mr. Murdock was one of the reform supervisors who went into office after the Schmitz upheaval. He is a very forceful and convincing speaker. His lecture on the early days of Unitarianism on the Pacific Coast will be free.

At the Moose Club last evening Willie Meehan, the heavyweight pugilist, was a feature of the "sawdust" stag affair. There was wrestling and boxing, and the rotund Willie performed. The committee: C. G. Wallney, F. S. Hayward, G. Maginnis, F. Brown and Larry Orthman.

BOUND THINKOGRAPHS

It would be difficult to find a more acceptible Christmas present than a bound volumne of the Thinkograph. It is full of zip and zaz, homey philosophy, pert sayings, neat quibs and real humor. The binding is in cloth, lettered in gold, and you can have your choice of volumes 1, 2, 3 and 4.

They don't cost a whole lot of money. If you will call at the News office you can get them for 50 cents a volume, whereas if you get them of the dealer 75 cents is the price.

Come around and take a look at these little books. If you never read one, scan a few of the pages, and if you don't say it is the best little 50-cent gift you can send to a friend in the East or anywhere else, you can use our head for a hatrack. tf

Ellis Landing

The 'Front Door' of Richmond

Adjoins the Great Inner Harbor—approved by U. S. Government.

All traffic to and from Richmond's Inner Harbor Wharves, the Ferry (which will be installed at our property) and the Ellis Ship Canal, must pass over the streets of Ellis Landing.

THE GOVERNMENT AND CITY MAPS PROVE THIS

The location of Ellis Landing makes it the logical center for retail and wholesale houses, banks, hotels and office buildings.

We have issued a 76-page book of great value to every investor. It contains 60 views of marine cities of this and other countries, and proves by authentic statistics that

THE MOST VALUABLE PROPERTY IN PRACTICALLY ALL SEAPORTS THROUGHOUT THE WORLD IS LOCATED ADJACENT TO THE HARBORS.

The figures were secured from the various City nad Harbor Commissioners and Chambers of Commerce. They prove the contentions of the well-known author, Jack London, that "those who are wise and far-sighted enough will avail themselves of the rare opportunity to own some of the valuable property in Ellis Landing at the present low prices."

Our illustrated book of reliable statistics is free with our compliments.

FREEHOLDERS GETTING DOWN TO BUSINESS

Last night the Board of Freeholders, fifteen in number, met in the offices of Attorney Wilbur S. Pierce, for the purpose of giving the new charter framed by them another thorough going over before officially signing it.

There were present at the meeting: O. R. Ludewig (chairman), D. W. Calfee, J. S. Chandler, W. A. Conn, Alex Elsie, Wm. Ellis, V. A. Fenner, J. O. Ford, E. J. Garrard, A. C. Lang, I. Lester, F. M. Neville, F. C. Schram, I. R. Vaughn and Thos. Conn.

The new charter as proposed consists of 19 pages of closely typewritten matter, and the meeting last night made minor changes only here and here in is various provisions.

The salient features of the charter are that the council shall consist of five members instead of nine, as at present, and the mayor shall preside over same, but have no vote except in case of tie; a clerk, who shall be ex-officio clerk of the council; an auditor, who shall be ex-officio assessor; a treasurer, who shall be ex-officio tax collector; an attorney, engineer, chief of police and such subordinate officers as the council may deem necessary.

All officers to appoint their own deputies and engage such employes as may be necessary, subject to the approval of the mayor.

The members of the council, mayor, auditor and treasurer, shall be elected by the people in May of each odd numbered years, and shall hold office four years, except that of the council first elected, three shall hold office four years, and the two receiving the lowest vote two years. The first mayor elected will hold office for two years only. The first election shall be held the second Monday in May, 1917.

The clerk, attorney, engineer, chief of police and all subordinate officers to be appointed by the mayor with the approval of the council, and the mayor has power of removal.

Councilmen will receive such compensation as may be fixed by ordinance adopted under the initiative.

The mayor shall receive the sum of $3000 per annum. The auditor and treasurer shall receive a salary of $2400 per annum, which shall cover also the offices for which they are ex-officio incumbent. Compensation of all other officers and deputies to be fixed by the council.

The electors by initiative ordinance may divide the city into wards, but councilmen must be voted for at large.

The duties of the various city officials are defined covering many pages. Other sections are devoted to such matters as calling elections, the initiative, recall, the budget, taxation, school department, police court, police and fire department, fire and police retirement fund, franchises, board of social service, advisory board, provision for city manager if desired by electors, public records, vested rights, present ordinances, etc.

It was expected by the freeholders that their final work in revising the new charter would be completed at this meeting. Discussion of many detail matters took up more time than was anticipated, and at least one more meeting will be necessary.

The gentlemen of this board have worked hard and conscientiously, and believe that the new charter to be submitted the people in the spring for ratification will meet with general approval.

MAYBE VALENTINE BALL.

An announcement that will be greeted with pleasure by the young social set of Richmond will probably be forthcoming from a special meeting of the Alumni Association of the local high school that will be held this evening. A Valentine dancing party on or about Valentine Day of next month is being seriously considered by the various members of the committee and definite affirmative action will probably be taken at the meeting.

A Valentine affair, should it be given, will be the second informal social affair given by the present Alumni Association administration since the sanctioning of a policy of frequent social affairs was given by the alumni last spring. The first affair, the Hallowe'en Harvest dance of last fall, will be long remembered by the young people of Richmond.

NEWS NOTES

Governor Hart of Arizona appears to be a stand-patter.

Fred Renner has sworn off arguing politics and gone to playing solitaire.

Circulation Manager Mallory is rolling in fifty to seventy-five new subscribers a day for the daily now, and if he don't let up on that we'll go broke buying white paper.

Beckhaus is as busy as a toad in a tar barrel these days. He bought up a lot of eats a long time ago before the prices took such a jump, and that helps a lot.

Variations entofo.

Marysville has developed the champion thief. He stole a hot stove and was cooking stolen poultry on it when caught. He probably also stole the fuel.

The new ordinance proposed by Dr. Blake to have vacant houses and buildings inspected before being occupied again, in the interest of health and sanitation, is a good one. It passed first reading.

The police had a busy month during December, but mostly on minor cases. There were 153 complaints made and 59 arrests resulted. We have two loaded cigars saved up to give to Chief Walker and Oliver Wylie.

When it comes to joy riding, Chief Lemoine would rather ride on the running board and hang on from the outside, all same fire truck. He's a natural born fireman and wouldn't know what to do if elected as president of the United States, or something.

Myers of the American Cleaning and Dying Company was in last evening and raised his advertising ante. He has been dyeing and cleaning us for so many years now that we feel quite cleanly.

We called up Julius Stiefvater last night about 9 o'clock to ask about how much the prices on prunes and potaties had gone up and found him in bed. He said early to bed and early to rise was his New Year resolution.

Manager Brewer of the light company showed up yesterday with fine new rubber auto gloves which someone put in his sock Christmas. They look like those some women wear to wash dishes in, only they're ten times bigger.

Ben Schapiro was looking over his new location last evening. He will spend most of his time in Richmond as soon as the offices are moved from S. F. Well, we'll just have to put up with it! He generally has a fairly good brand of cigars.

Elsewhere is a news item about the Community Club going to give a play Friday night. We understand that President Pawnell is to be the heavy villain and pursue the heroine, who will be Station Agent Jolly in petticoats—short ones, too. We have not learned what part Frank McCausland is to take, but maybe he will be the bloodhound and Chase Eliza over the ice. We're going—the eats are free.
